

CHI OMEGA FRATERNITY POLICY ON VISITATION

Chi Omega endeavors to protect to the best of its ability the safety and welfare of its members. A Chi Omega chapter facility is provided and maintained for the good of both the residents of the facility and the collegiate chapter. Chi Omega limits visitation at a chapter facility since the visitation of guests in individual members' rooms or in the sleeping quarters of the facility could infringe on the privacy of roommates and other members and present opportunities for harm to members. During specific times or on special occasions permission may be given to allow guests in the private areas of the chapter facility. These instances are determined jointly by the Executive Board, Advisory Board, and House Corporation Board.
